WIZARD CLASS

Complete Base Set

Color: Blue

Owns: Spells, combos, triggers, multipliers

Role: Combo engine backbone

Class Staples (10 cards)

Cards any Wizard archetype runs regardless of specialization.

Card	Cost	Effect	Copies
Counter	2	Reaction: Negate target spell	3
Insight	1	Draw 2 cards	3
Arcane Bolt	1	Deal 2 damage	2
Dispel	1	Reaction: Destroy target equipment or persistent effect	2

ENCHANTER

Keywords, keyword combinations, and keyword tricks. The Enchanter makes creatures fight differently — not bigger, not tougher, but with the right ability at the right moment.

Design Rule: The Enchanter grants keywords, never raw stat buffs. If a card gives +X/+X, it belongs to Commander. If a card gives Shield or heals HP, it belongs to Warden. The Enchanter changes how a creature fights, not how hard it hits.
